PAUPER BURIALS ARE CHECKED ON BY COUNTY BOARD

On complaint of Mrs. L. W. Armstrong, Pahokee resident, who claimed that the county board of commissioners' money, is expected to improve conditions of county pauper burials described at the meeting.

Mrs. Armstrong described conditions she claimed she found at the Knowles colored funeral home when she went there to attend the funeral of her negro workman.

As a result of her story the board voted to instruct the Simon Funeral home, holder of the county pauper burial contract to turn over no more burials to the Knowles concern.

In another move, the board unanimously adopted the board instructed the county physician to make an inspection of all burials around the county to determine if burials are being conducted in accordance with the county contract and with the state health laws and regulations.

Although the Pahokee negro woman died on Saturday, the burial did not take place until the following Friday, Mrs. Armstrong told the board. She said she came to West Palm Beach to attend the funeral and arrival at the Knowles establishment was informed by relatives of the dead woman that the county objected to visitors entering the place, she said.

Returning to attend the funeral, Mrs. Armstrong said she was informed by members of the family that undertakers' assistants had told them they could not go to the burying ground and there would be no services because "the county did not permit."

Again Mrs. Armstrong overrode the objections she said and went to the cemetery. Owing to her presence no further objection was made to a funeral service, Mrs. Armstrong said.

Commissioner Doyle Crocker of Pahokee informed the board that following Mrs. Armstrong's experience he came into town and took a photograph of the situation and then to the Knowles establishment. On instruction from the county physician, he said, the place was cleaned up.

Crop Production Loans Rates Cut To 5 Percent

The interest rate on loans from the West Palm Beach Production Credit Association has been reduced from 5 1/2 to 5 per cent. A Melrose Lamar, secretary-treasurer of the Farm Credit Administration branch at West Palm Beach announced this week. The lowered rate of interest will affect only new loans, applications for which are expected to begin arriving now that the spring harvesting is practically at a close in all of the territory served by the local office. Mr. Lamar said.

Notice of the rate reduction was received from W. L. Myers, Governor of the Farm Credit Administration in Washington, D. C., and according to Mr. Lamar the rate change became effective immediately on all new loans and advances made by the association and will be applicable until further notice.

"The new interest rate of 5 percent will not affect loans already advanced in full," Mr. Lamar said. "Those will continue to bear interest at the rate prevailing when the loan was closed. The interest charges on loans from the association are collected when the loans mature. The West Palm Beach association is now making loans on acceptable crop and chattel security to farmers in Palm Beach and Broward counties."

Drive it only 5 miles

and you'll never be satisfied with any other low-priced car

WHY do you suppose Chevrolet keeps repeating, in all of its advertising, "Drive it only 5 miles"? Very frankly, here's the reason: Chevrolet engineers have tried out all the various makes of cars in today's low-price field. They have compared performance—on rough roads, in traffic, over hills, through sand and water! And they have proved, to their complete satisfaction, the same things in hundreds of thousands of Chevrolet owners are proving in their daily driving. The Chevrolet ride simply can't be matched by any other in the low-price field. That's why we urge you to "Drive it only 5 miles"—and that's why we promise, "you'll never be satisfied with any other low-priced car."
